

QUIET COLORS

THE VOGUE.

Softened by Art to Give the Effect of Having Been Subdued by Time.

"No matter how inexpensive a gown may be, it should be becoming in color," writes Emma M. Hooper in the March Ladies' Home Journal. "There are a few points that should always be remembered by the woman with a limited wardrobe. She should not invest in high novelty shades; if very stout or very tall, or unusually slender, she should not wear light or bright colors on the street. Black and white are particularly stylish for trimmings on any color or material. A light, airy effect should be aimed at by young women and young girls. The colors on the color card issued for the manufacturing and retail trades are almost faded in appearance, so light are the tones represented by the pastel or miniature shades. Everything is softened by art to appear as though subdued by time and several old colors in the list are well disguised by this antique finish."

The Best Salve in The World.

"Is Banner Salve. It is made from a prescription by a world-wide known skin specialist and is positively the most healing salve for piles, burns, scalds, ulcers, running sores and all skin diseases.—Moorman & Owen.

Spring Work in the Orchard.

The winter of 1899-1900 has so far proved an exception to all the winters of 10 years. Not a single bud on our fruit trees has been injured yet. I find on careful examination that a few peach buds were not well ripened in the fall, and will probably not develop. Otherwise even peach buds are in perfect condition. The prospect is for a large crop where peaches are generally a failure. Apple buds are very promising and most of the pears are in excellent condition. Cherry buds and plum buds could not be better. All though the strawberries have needed the snow, the ice has laid over them in a thin sheet; and I think has been beneficial. Raspberry canes are in excellent condition as also blackberries. It is exceedingly important that farmers shall busy themselves during March and April in destroying the eggs of the forest worms. These eggs are glued in masses on the twigs, and bid fair to give us a terrible fight next spring. If they are destroyed from the apples, plums and pears and other overhead fruits, we have them only to fight them as they develop on the forest and shade trees. I have so far destroyed or had destroyed about 4000 clusters of eggs and do not expect to stop short of 10,000. In other words, I propose to clear my fruit trees so thoroughly that in the spring I shall need but a few days of sharp work with the torch. These worms hatch out earliest on the trees that are first to blossom, that is, the plum trees. They follow the development of the tree, and appear last on the Northern Spy apple.—E. P. Powell, New York.

Are you sick? If so investigate the merits of HERBINE. It is a concentrated medicine, the dose is small, yet it quickly produces the most gratifying results, digestion improves, the lips and cheeks lose their pallor, the eye becomes bright and the step elastic. Price 50 cents.

A Bicycle Story.

A farmer drifted into a hardware store and was asked by the manager "Don't you want to buy a bicycle to ride around your farm on? The're cheap now. Can give you one for thirty-five dollars." "I'd sooner put the thirty-five dollars into a cow," said the farmer. "But think," said the manager, "how foolish you would look riding around town on a cow." "Oh I don't know," said the farmer, "no more foolish, perhaps, than I would look milking a bicycle."—Exchange.

Dr. Bell's Cough Syrup cures overnight the most stubborn cold as well as all its complications—tickling in the throat, husky voice and violent coughing. It is the most wonderful medicine science has produced.

Will Reimburse.

The Kentucky Republican Club at an executive session held at Washington discussed a proposition to raise the sum of \$25,000 for the purpose of reimbursing W. S. Taylor for the expenditure he was compelled to make in the recent political contest in the State. It was decided to make an effort to raise \$5,000 of the sum in Washington by popular subscriptions.—Cumberland Enquirer.

J. B. Clark, Peoria, Ill., says, "Surgeons wanted to operate on me for piles, but I cured them with DeWitt's Witch Hazel Salve." It is infallible for piles and skin diseases. Beware of counterfeits.—A. R. Fisher.

Wool Gathering Thoughts.

The two most absent minded men on thought record are the fellow who had left his watch at home, and then took it out to see if he had time to go back and get it; and the man who put on his office door a card, saying: "Out; will be back soon," and on his return, sat down on the stair step to wait for himself.—Exchange.

Eugene J. Hall, the poet and publisher, says that one dose of Foley's Honey and Tar restored his voice when hoarseness threatened to prevent his lecture at Central Music Hall, Chicago. Nothing else as good.—Moorman and Owen.

JONES-WILSON.

They will return to Fordsville this evening.—Owensboro Inquirer.

Telephones in Japan.

There are 4,200 telephones in use in the City of Tokyo, with applications for 3,582 more. It is calculated that by 1902, ten thousand telephones will be in use in the capital of Japan. When first introduced, the price was only 40 yen a year, but it has now been advanced to 66 yen. The yen is worth about 50 cents.—Missionary Review.

To Preserve Knowledge.

It is no more possible for an idle man to keep together a certain stock of knowledge than it is possible to keep together a stock of eggs exposed to the meridian sun. Every day destroys a fact, a relation, or an influence; and the only way of preserving the bulk and value of the pile is by constantly adding to it.—Sidney Smith

Too many people lose valuable time in experimenting with cough and cold cures. They should take Foley's Honey and Tar before it is too late.—Moorman & Owen.

A Reminder.

Look in Your Mirror

Do you see sparkling eyes, a healthy, tinted skin, a sweet expression and a graceful form? These attractions are the result of good health. If they are absent, there is nearly always some disorder of the distinctly feminine organs present. Healthy menstrual organs mean health and beauty everywhere.

McELREE'S
Wine of Cardui

makes women beautiful and healthy. It strikes at the root of all their trouble. There is no menstrual disorder, ache or pain which it will not cure. It is for the budding girl, the busy wife and the matron approaching the change of life. At every trying crisis in a woman's life it brings health, strength and happiness. It costs \$1.00 of medicine dealers.

RUNNING SORE ON HIS ANKLE.

After Six Years of Intense Suffering, Promptly Cured

By S. S. S. Obstinate sores and ulcers which refuse to heal under ordinary treatment soon become chronic and deep-seated, and are a sure sign that the entire circulation is in a depraved condition. They are a severe drain upon the system, and are constantly sapping away the vitality. In every case the poison must be eliminated from the blood, and no amount of external treatment can have any effect.

There is no uncertainty about the merits of S. S. S.; every claim made for it is backed up strongly by convincing testimony of those who have been cured by it and know of its virtues by experience.

Mr. L. J. Clark, of Orange Courthouse, Va., writes:

"For six years I had an obstinate, running ulcer on my ankle, which at times caused me intense suffering. I was so disabled for a long while that I was wholly unfit for business. One of the best doctors treated me constantly but did me no good. I then tried various blood remedies, without the least benefit. S. S. S. was so highly recommended that I concluded to try it, and the effect was wonderful. It seemed to get right at the seat of the disease and force the poison out, and I was soon completely cured." Swift's Specific—

S. S. S. FOR THE BLOOD

—drives out every trace of impurity in the blood, and in this way cures permanently the most obstinate, deep-seated sore or ulcer. It is the only blood remedy guaranteed purely vegetable, and contains not a particle of potash, mercury, or other mineral. S. S. S. cures Contagious Blood Poison, Scrofula, Cancer, Catarrh, Eczema, Rheumatism, Sores, Ulcers, Boils, or any other blood trouble. Insist upon S. S. S.; nothing can take its place.
